

Problem:

My toilet is plugged, over flowing or running.

Solution:

My toilet is overflowing!

- 1) Turn shutoff valve behind toilet clockwise until water stops.

My toilet is running!

- 1) Jiggle the handle to make sure the flapper seats properly.
- 2) If problems persists, contact management

My toilet is plugged!

- 1) Use a plunger to dislodge blockage.

- 2) If problems persists, contact management
